

# Public Private Partnerships Execution

## PUBLIC PRIVATE PARTNERSHIPS TRAINING

### COURSE OVERVIEW

The purpose of the Public Private Partnerships Execution certification is to confirm whether the candidate has achieved sufficient understanding of how to apply the structuring and drafting Process of PPP tender documents and the PPP contract, the tendering and awarding of PPP contracts, and the management of PPP contracts during the Construction and Operations Phases. A successful Execution candidate should, with suitable direction and as part of a multi-disciplinary team, be able to start structuring and drafting PPP tender documents and PPP contracts, manage the tender and awarding of PPP contracts, and manage PPP contracts during the Construction and Operations Phases, whilst anticipating and planning for hand back requirements at the end of the contract period, but they may not be sufficiently skilled to do this appropriately for all situations.
