

# COBIT®

An ISACA Framework

## Course Description

### General Information:

COBIT® is a framework for the enterprise governance and management of information and technology (I&T) that supports enterprise goal achievement. Certificate holders gain a deeper understanding of governance and management objectives, how to align IT with business goals, and how to map and create customized I&T governance frameworks.

There are 75 Questions on the exam which must be completed in 2 hours. It is available online via remote proctoring and at in-person testing centers where available.

### The COBIT Foundations certificate is intended for:

Current COBIT 5 Foundation certificate holders as well as those new to COBIT who are interested in achieving the latest foundation certificate. It can be beneficial for strategic roles in GRC and IT Governance, including:

- Senior Manager
- Business Manager
- IT Manager
- Assurance Providers
- Risk Management
- Regulator
- GRC Manager
- Consultant
- Solutions Architect
- Program Manager
- Security and Compliance Advisors
